

Serial No.: 09/899,019
Art Unit : 3643

Docket No. 19012.00

--1. (Amended) A multipurpose fishing net, comprising:

a rigid frame, wherein said frame is rectangular with a first pair of sides comprising opposed first and second sides and a second pair of sides comprising opposed third and fourth sides;

a flotation device affixed to said frame, wherein said flotation device having first through fourth sections of cylindrical closed cell foam material respectively secured over said first through fourth sides of said frame; and

a single ply of flexible net material extending loosely across said frame and defining a shallow net pocket, such that said net material is in substantially the same plane as said frame.

3. (Amended) The multipurpose fishing net according to claim 1, wherein: said frame is formed of first through fourth lengths of hollow tubular material; and

said lengths are joined to one another by four ninety degree elbows.

5. (Amended) The multipurpose fishing net according to claim 1, wherein said net material is secured to each of said first through fourth sides of said frame.

6. (Amended) The multipurpose fishing net according to claim 1, wherein said net material is secured to only one said pair of sides of said frame.
